

## Uxbridge Health Centre

The clinic is on the first floor, situated above the GP surgery. Access is via the ramp adjacent to The Chimes car park. Check in at reception when you arrive, and the Screener will call you when ready. Screening takes place in the Cool room. Please be alert as the waiting area can get very busy as it is used by a number of other service users.

**\*Please be aware that the corridors are narrow for wheelchairs and a long walk, not ideal for those with mobility issues. So please pick an alternative venue if this would be a problem\***

**Parking:** Ample parking available on NCP car park across the road
